

CENTRAL INDIANA ASSE CHAPTER NEWSLETTER

December 2014

Happy Holidays

Merry Christmas and Happy Holidays to all Chapter members! May you and your family have a safe and enjoyable Christmas season.

As 2014 draws to a close I would like to briefly look back at a few Chapter milestones. In March the Chapter signed an Alliance Agreement with the Indiana Department of Labor during the annual Governor's Workplace Safety Award luncheon at the Indiana Safety & Health Conference. In June the Chapter donated \$9,000 to the ASSE Foundation at the 2014 ASSE PDC in Orlando, FL for the Jim Kriner Memorial Scholarship. During the summer months, the Chapter donated 200 bike helmets to FreeWheelin' in Indianapolis; \$500 to the Hoosier Burn Camp; and \$500 towards the creation of emergency backpacks for the Granville Wells Elementary School. In September the Chapter held its second annual scholarship golf outing and raised a \$1,000 scholarship for an ASSE student member in Indiana.

We're looking forward to another successful year in 2015!

Vince Plank, CSP – Chapter President

March 19 – 21, 2015 ASP / CSP Workshops – Hilton Garden Inn Indianapolis Airport

The ASP (often called CSP Safety Fundamentals exam) is the first test required in the two-test process of becoming a CSP. The five hour computer delivered test consists of 200 questions designed to measure the academic knowledge expected of the entry-level safety professional. This workshop will prepare you for the Board of Certified Safety Professionals' Safety Fundamentals Examination, which leads to the ASP designation. You will review more than 600 problems addressing the complete examination blueprint.

The CSP Exam is the second-level examination required in the two test process. This five and one-half hour computer delivered examination consists of 200 questions that examine the candidate's applied knowledge and the application of experience gained through professional practice. Both the ASP and the CSP are administered by the BCSP. Each course is 3 Days (2.2 CEUs / 3.67 Safety CM Points, 25.5 CMPs / 2.2 COCs).
