

August 2024 Newsletter

PRESIDENT'S LETTER

I hope the summer has treated you well!

The Annual Future Safety Leaders Golf Outing last Friday was a huge success! Kristi VanSoest and Vince Plank did an incredible job planning this out and make the day a success. We had GREAT weather and everything went off without a hitch. We had a lot of people participate in the raffle. We added digital scoring this year – you could follow all the teams in real time. We could not have done without all the sponsors for this event. The Future Safety Leaders Golf Outing continues to be a sought-out event and fun for everyone. Again – Thank You Vince and Kristi!! Great Job!

We headed north in July to Purdue University for behind-the-scenes safety tour. Our Chapter covers a lot of geography – and we have been participating in the Greater Lafayette Area Safety Council through Program Chair Ginger Dayton and saw an active safety culture and scheduled a meeting. I had no idea Purdue had a nuclear reactor. Everyone enjoyed the event and we'll probably plan to have another event in 2025.

Next week, we are having one of our annual meetings at State Safety. Patricia McIntire is going to lead everyone on Best Practices for VPP sites in Indiana. Make sure you sign-up through the website soon. This is always a well-attended meeting since numerous sites at VPP in the area.

We work very hard to provide value to what you do. If you wish to help us out, or having a meeting topic, or wish to sponsor – please let us know.

Also, if you would like to get more involved in what the chapter does with planning, putting on events, and etc. – let me know. We have several opportunities.

Thank You for all you do to help protect people, property, and the environment.

Mark C. Frye

President

UPCOMING EVENTS

August Chapter Meeting Friday, August 9, 20

Topic: Best Practices for VPP Sites in Indiana

Speakers: Patricia McIntire

Time: 11:00am -1:00pm

Venue: State Safety

5410 Victory Drive, Suite A

Indianapolis, IN 46203

for this event!

Help Make This Happen!

If your company would like to sponsor lunch for our chapter meetings, please contact Ginger Dayton: Ginger.Dayton@atipt.com

2024 Chapter Meeting Calendar

As you plan your Continuing Education and networking for 2024, mark your calendars for the monthly CI-ASSP Chapter Meetings. Please remember to sign up for your free ticket at www.centralindiana.assp.org/events each month. This ensures we have a seat for you and lunch for all attendees.

- Click on “View Details” button for the month.
- After reading the topic, speaker/host, venue, scroll down below the map to “Tickets”.
- Adjust the quantity to “1” and click “Register Now”.
- A screen with Attendee Information will appear.
- Please fill in the information including if you will be attending In Person or On-line.
- Click “proceed to finalize registration”
- If you have successfully RSVPd, you will receive an email “Your Event Registration Details” from ASSP

NOTE: All topics may not be available for On-line Attendees.

If your company would like to host a meeting or sponsor a lunch, please reach out to Ginger.Dayton@atipt.com. If you have a speaker to recommend, let Ginger know.

Ignite the Spark!
Volunteer for JA JobSpark!

JA JobSpark

Inspiring our future workforce.

As we approach that time of year once again, we invite you to make a lasting impact on the future of our youth. We are excited to introduce the career path of Safety Professionals through the annual Junior Achievement JobSpark event.

What is JobSpark? JobSpark is a dynamic, multi-day career expo that engages over 13,000 eighth graders in Indianapolis. Beyond the event itself, it includes in-class curriculum and activities designed to ignite curiosity and excitement about future careers.

When Can You Volunteer? Mark your calendars for September 24th and 25th! We have flexible time slots available, allowing you to choose a role that suits your expertise and interests. Whether you guide students through exhibits, share your industry knowledge, or contribute behind the scenes, your time will truly make a difference.

Join us in shaping the aspirations of our next generation. Together, we can inspire young minds and pave the way for their future success!

Save the Date: Indiana Health and Safety Conference February 24-26, 2025

The 2025 Indiana Safety and Health Conference & Expo is filled with need-to-know training to keep your employees and colleagues safe on the job site. Featuring more than 70 breakout sessions and over 100 exhibitors and sponsors, this is a conference you do not want to miss!

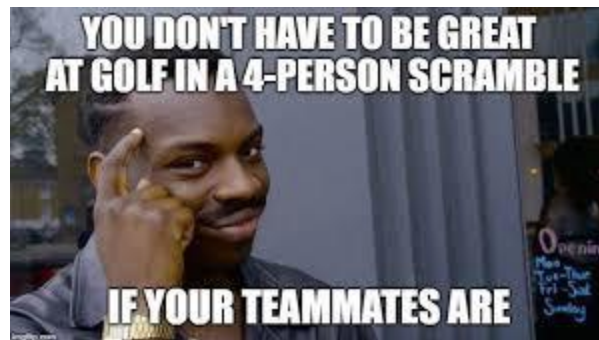

Discover new strategies for compliance to build a safer workplace at the [2025 Indiana Safety and Health Conference & Expo](#), presented by the [Central Indiana Chapter of ASSP](#) and the [Indiana Chamber of Commerce](#) in partnership with [INSafe](#) and the [Coalition for Construction Safety](#).

For more information, please visit www.INSafetyConf.com.

Save the Date: **13th Annual Future Safety Leaders Golf Outing** **Friday, July 25, 2025**

Mark your calendars for an exciting and impactful event! Our 13th Annual Future Safety Leaders Golf Outing will take place on **Friday, July 25, 2025**. This special outing is a fantastic opportunity to enjoy a day of golf while supporting the next generation of safety leaders.

Whether you're an avid golfer or just looking to network and have fun, this event is perfect for everyone. Stay tuned for more details on registration and location. Don't miss out on the chance to make a difference and enjoy a wonderful day on the greens!

NEWS

Construction Focus Committee

The Construction Focus Committee aims to provide valuable insights, updates, and discussions on various construction related topics.

By gathering professionals who work directly in construction or closely with construction projects, we hope to create a forum for sharing best practices, addressing challenges, and exploring innovative solutions.

As part of our ongoing efforts to enhance the quality and relevance of our monthly meetings, we would like to invite anyone with experience in the construction industry to join our Construction Focus Committee. **If you are interested in joining the Construction Focus Committee please reach out to Daniel Brewer: dbrewer@Meyer-Najem.com**

CI-ASSP Members Spotlight

We would like to recognize the following members
for their August 2024 milestone anniversaries!

Richard Griffith - 45 years
Amy Szentes - 20 years
Stephen Clark - 10 years

Photo RoundUp

A Successful 12th Annual Future Safety Leaders Golf Outing!

We are delighted to share that our 12th Annual Future Safety Leaders Golf Outing, held on July 26, 2024, was a tremendous success! With 133 golfers, the generous support of 25 sponsors and the assistance of many volunteers, the event was a fantastic day of golf, networking, and community spirit.

The proceeds from this outing will help fund local college students who are pursuing a degree in safety. Your participation and support play a crucial role in fostering the next generation of safety leaders.

Thank you to everyone who participated and contributed to making this outing memorable. Stay tuned for details on our upcoming 13th Annual Future Safety Leaders Golf Outing on July 25, 2025. We look forward to seeing you there!

Behind-the-Scenes at Purdue University: Exploring Campus Safety

On July 12, our chapter had the incredible opportunity to visit the Purdue University campus for a behind-the-scenes look at safety on a college campus. One of the highlights of our visit was touring their on-site nuclear reactor, which is used for educational purposes. We gained valuable insights into the testing and uses of the reactor, enhancing our understanding of campus safety measures and protocols.

It was a fascinating experience that showcased the commitment to safety and innovation at Purdue University. We extend our gratitude to the university for hosting us and providing such an informative tour.

Here is a little bit about the reactor from Purdue's Website:

PUR-1, Purdue's Nuclear Reactor

The Purdue University Reactor Number One (PUR-1) is the first and only nuclear reactor operating in Indiana. It is the first and only US NRC facility to be licensed for a fully digital safety and control system. As part of a fleet of 25 University reactors across the US, it has been designated as part of the critical infrastructure for the country. The primary mission of the facility is to teach and train the next generation of Nuclear Engineers. In addition to its educational uses, the reactor acts as a neutron source for activation analysis to support other departments including engineering, health science, chemistry, pharmacy, agriculture, biology, and nanotechnology.

Licensed to a thermal power level of 12 kW, the reactor has an average thermal flux of 2.1×10^{11} nv. At this level, the facility features maximum flexibility for a broad spectrum of experiments with an industry leading safety envelope. Three full time employees perform day-to-day operations including maintenance, experiment support, and customer development.
